

Patterns into Profits™

The Official Harmonic Trading Course By Scott Carney

Welcome Harmonic Traders! **We pleased to announce that we are now offering a LIVE EDUCATION COURSE WITH SCOTT CARNEY.** Creator of the Harmonic Trading approach and the rules that define the most popular patterns in the financial world. Scott will present this new **STANDARDIZED *Patterns into Profits*™** course. This material is the foundation course that comprises the Certified Harmonic Trader Program. This material is being translated and presented around the world in multiple languages in the same format but the program will be taught **LIVE BY SCOTT CARNEY** online only one time this year!

Each Saturday session will include 90-minutes of instruction and 30-minutes to ask Scott direct questions about Harmonic Trading concepts and current market opportunities. Scott will explain the essential principles of Harmonic Trading that define the entire skill set that turns *Patterns into Profits*.™ In these **FIVE (5) LIVE 90-minute** education sessions, you will be taught how to identify, execute and manage harmonic pattern opportunities and define these parameters **IN ADVANCE!** This course will focus on **FOREX** and **Futures** markets geared towards intraday and swing position traders. We will analyze all timeframes – from 5-minute to **Weekly** – but outline the optimal situations best suited for harmonic patterns in these markets.

You will receive **10 hours** of instruction, an additional **1-hour** introductory webinar and **3-hour** trading session (**14 hours Total!**) to learn from the creator of harmonic patterns for **ONLY \$2499.95.**

The course begins Saturday May 16th @ 10am, and each session will be held each Saturday thereafter for a total of **5 classes.** These sessions will be recorded and available for your permanent review through our online menu.

Patterns into Profits™

Official Harmonic Trading Course Outline

March 30th: REGISTRATION BEGINS!

Introductory Webinar: Saturday April 23rd @ 10am EST:

Introductory Webinar Live for Early Registrants who sign up before this session before the deadline. After you complete the order, you will be sent pre-course materials with additional instructions, resources and important information to maximize your learning experience.

Session 1: Saturday May 14th 10am EST

Harmonic Trading Introduction

- What is Harmonic Trading?
- Harmonic Trading Ratios
- AB=CD Patterns

In this webinar, Scott will explain the essential principles of Harmonic Trading. He will present the primary foundation of the approach to explain why Harmonic Trading works in the financial markets! This introduction is an essential beginning to advance your Harmonic Trading. The insights and information shared in this presentation establish the proper mental perspective to apply these strategies to real trade opportunities.

Scott will provide a thorough explanation of the AB=CD pattern and why it works. The AB=CD Pattern is the primary structure within the Harmonic Trading Trade approach. Although this structure has been analyzed in previous efforts, Scott is most responsible for advancing its application in his 1998 book "The Harmonic Trader," and even at greater length in his 2004 book, "Harmonic Trading of the Financial Markets: Volume One." Strategies such as the AB=CD Pattern Reciprocal Ratios, the Perfect AB=CD and the Alternate AB=CD variations are a few of the unprecedented strategies that Scott outlines in this presentation.

Session 2: Saturday May 21st 10am EST

Harmonic Trading Pattern Identification: Part I

- **M&W Pattern Types Introduction**
- **Retracement Patterns - Gartley & Bat Pattern**
- **Extension Patterns - Alternate Bat Pattern, Crab Pattern, Deep Crab Pattern & Butterfly Pattern**

During this lesson he will demonstrate how to identify the pattern, offer a thorough explanation of the pattern's origin and outline how to apply the pattern to future trading opportunities. Although others have analyzed the patterns, Scott's definition created the ideal conditions to define the best opportunities. The ideal alignment of these patterns' Fibonacci ratios has been recognized throughout the industry and has become the classic harmonic patterns.

Session 3: Saturday May 28th 10am EST

Harmonic Trading Pattern Identification: Part II

- **Non-M&W Pattern Types Introduction**
- **Shark Pattern**
- **5-0 Pattern**

We finish up going through the non-M&W Pattern types created by Scott Carney such as the Shark and the 5-0. He will explain the elements that define these structural opportunities and how they can be employed to define precise opportunities, especially in specific technical situations. He will explain the price parameters that comprise the 5-0 and the Shark, their stop loss limits and the important management strategies that optimize the effectiveness of these patterns. As the creator of the Shark and 5-0 patterns, Scott will share an unparalleled insight unlike anyone else and how to maximize these opportunities.

Session 4: Saturday June 4th 10am EST

Harmonic Trading Execution

- Introduction to the “Natural Harmonic Reaction”
- Principles of Execution Confirmation
- Timeframes

We will examine the critical aspects of Harmonic Trading Execution strategies. We will focus on concepts such as the Potential Reversal Zone (PRZ), the Terminal Price Bar (TBar) and other confirmation signals to pinpoint executions of harmonic patterns. Scott will clarify why these strategies are critical in identifying which patterns have the greatest potential for profit and which price structures should be avoided.

Harmonic Trading execution is an extremely critical step in the decision-making process. You will learn how to optimize trade entries, reduce risk and maximize a pattern’s profit potential! We will analyze specific strategies such as price action in the Potential Reversal Zone (PRZ), Trend Channels and the importance of a new concept Scott will introduce called the Permissible Execution Zone™ (PEZ). This strategy will be introduced formally in his upcoming book, “Harmonic Trading: Volume Three” but presented in its entirety in this session. Finally, we will analyze trading opportunities within the context of multiple timeframes. This session will be a critical discussion as we implement harmonic pattern identification strategies within a defined trading plan in a very specific way.

Session 5: Saturday June 11th 10am EST

Harmonic Trading Management

- **Introduction of Harmonic Trading Management**
- **Principles of Management - Harmonic Trading Reversal Types and Timeframes**
- **The Harmonic Trading Management Model**

We conclude the program with a detailed review of the Harmonic Trading Management System that explains how to measure profit targets, interpret price action for maximum returns and establishes the proper expectations to know how to handle properly the completion of a trade. Scott will present his best management strategies, including Harmonic Trading Reversal Types, employing his Harmonic Strength Index proprietary indicator and advanced RSI interpretations, including RSI BAMM™. This session will bring it all together, walk you through real trades with the Harmonic Trading Process and truly show you how to turn "Patterns into Profits"™!

Week of June 12th:

**Three Hour Live Trading Session with Scott Carney
(TBD by Class Attendees)**

Please contact us directly at

HarmonicTrader@HarmonicTrader.com for more information or to request additional assistance for processing the class payment.
